

MILLENNIUM
TECHNOLOGY
PRIZE

CALL FOR NOMINATIONS

2027 Millennium Technology Prize

Nominations now open until 27 February 2026

Millennium Technology Prize, the world's leading award focused on technological innovations for a better life, calls for nominations. The winner of the pre-eminent prize receives one million euros. The prize is awarded for a breakthrough technological innovation, with the next award ceremony slated for May 2027.

Transforming bold ideas into reality demands relentless effort and vision. The Millennium Technology Prize honours the innovators who overcome every challenge to redefine the future. The prize has been awarded for world-changing innovations such as ethical stem cell research, an open-source operating system, and next-generation DNA sequencing. In this nomination round, the eligibility criteria of the prize have been expanded to even more future-oriented innovations that improve the well-being of humankind and the planet and stimulate further research and development.

The Call for Nominations is open until 27 February 2026. We welcome nominations from organizations and individuals around the world and all fields of technology, except military technology. Nominators are invited to consider people and teams from diverse backgrounds when choosing their nominee(s).

Learn more and nominate: www.millenniumprize.org

Kindly also share this invitation with your peers and networks.

Sincerely,

Minna Palmroth
Chair, Technology Academy Finland
